

## Press release

### Commencal becomes partner of Verbier and the Verbier Bikepark

Commencal becomes an official partner of Verbier Tourisme and the Verbier Bikepark. The Andorran brand, a reference in terms of bicycles but also in terms of skiing, has joined forces with Verbier and its Bikepark.

Commencal Bikes & Skis was created in 2000 in Andorra. Since then, the objective has always been to develop bikes and skis in the purest spirit of the mountains. The offices, located in the heart of the Pyrenean mountains, offer countless playgrounds in both summer and winter to develop and perfect bikes and skis.

Commencal, like Verbier, has always supported talented athletes. On this occasion, Jérôme Caroli, already a Verbier ambassador, joins the Commencal VEE downhill team. "I am very happy to sign for Commencal VEE for 2022. I've been racing in the World Cup as a private rider for a few years now, so joining a factory team for the first time is something I'm really grateful for." We wish him all the best in his new team!

By making Commencal its official partner, Verbier is delighted to be able to share their common passion for cycling in the magnificent setting of the Swiss Alps, but also throughout the winter on Switzerland's largest ski area with the new range of Commencal skis and snowboards.

The destination and its new partner will be organising various events and activities over the next few years to offer sports enthusiasts even more experiences and sensations in its infinite playground.
