Verbier voted « World's Best Ski Resort 2022 » at the World Ski Awards

After four awards in 2018, 2019, 2021 and 2022, Verbier has been voted [“Switzerland's Best Ski Resort 2023”](#) for the fifth time in six years during the World Ski Awards 2023. Following a campaign conducted among all its partners, residents, and fans of the destination, in Switzerland and around the world, Verbier managed to win the highest number of votes among the country's most prestigious ski destinations.

This year, despite remaining on the [world podium](#), Verbier had to relinquish the title of "World Best Ski Resort 2023" to Val Thorens. Verbier Tourisme would like to congratulate them on their victory.

“This new award highlights the work done by all the destination's tourism partners, as well as the attachment of Verbier and Val de Bagnes' guests, residents and long-standing regulars. It is therefore a collective victory for the entire destination, for all those involved in tourism and the economy in Verbier and Val de Bagnes, as well as for its main and secondary residents. This award has had a very tangible impact on our destination, in terms of international reputation and awareness, media impact and, ultimately, an increase in visitor numbers to the destination.”

Simon Wiget, director of Verbier Tourisme

“Once again, it's a great honour to be awarded this title. It rewards everyone involved in our destination, which is constantly striving to improve, with the customer experience as its main concern.”
